**G4 Manufactures Ultra
High Power, Rechargeable
Advanced NiMH Batteries**

A thick, dark blue arrow pointing to the left, with the word 'Discharge' written in white, bold, sans-serif font in the center.

Discharge

Company Overview

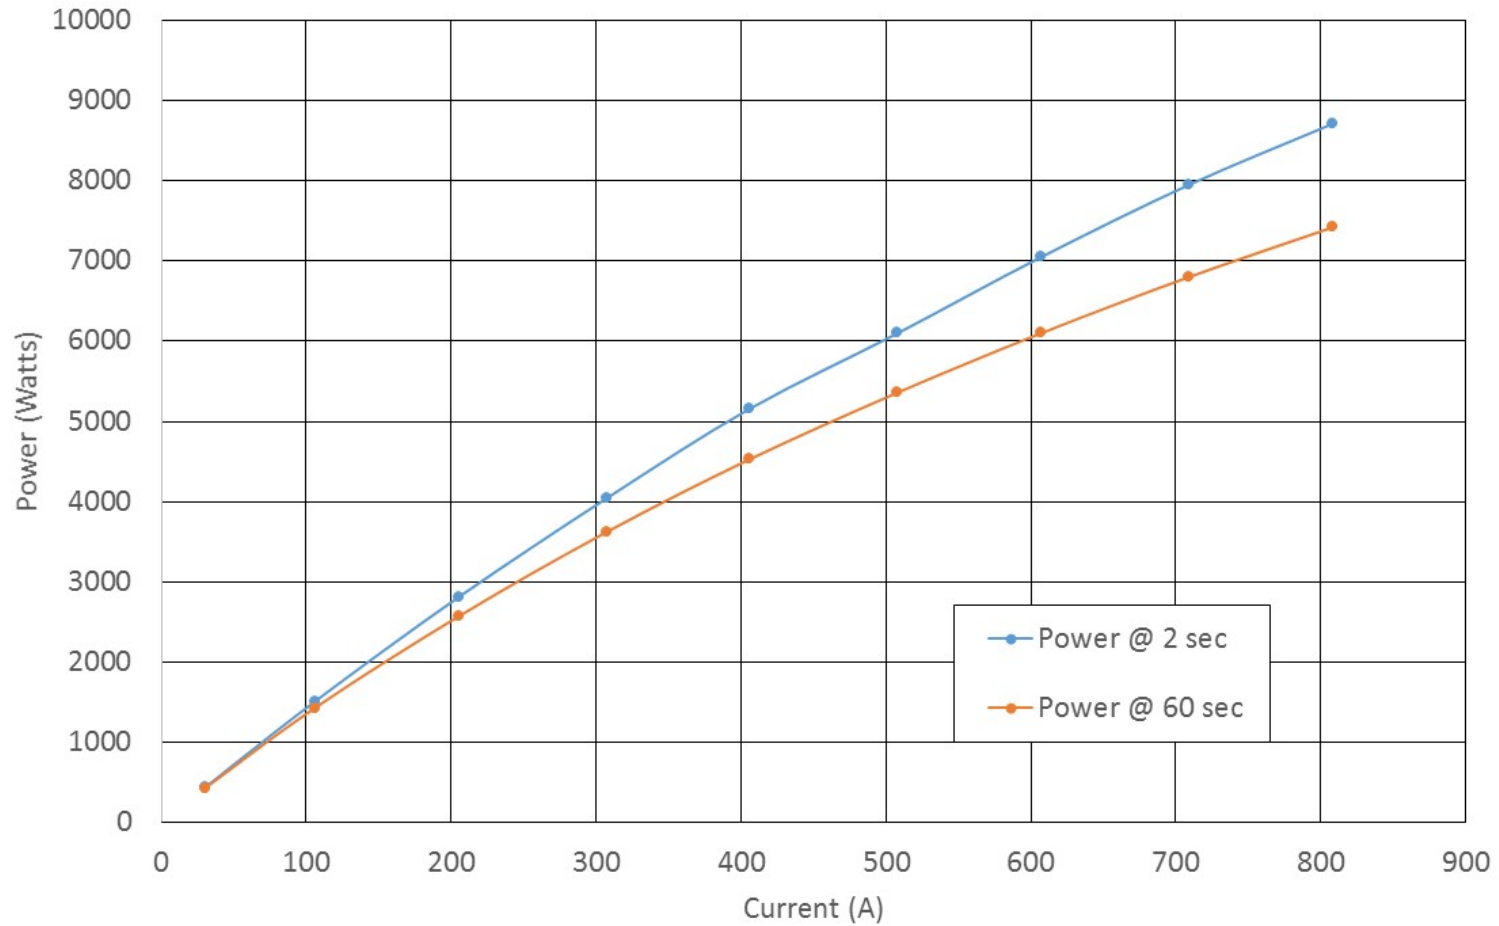

- Long history of Nickel battery development
 - General Electric
 - Gates
 - Energizer
- Team consists of battery veterans with over 150 years experience
- Based in United States (Alachua, FL)

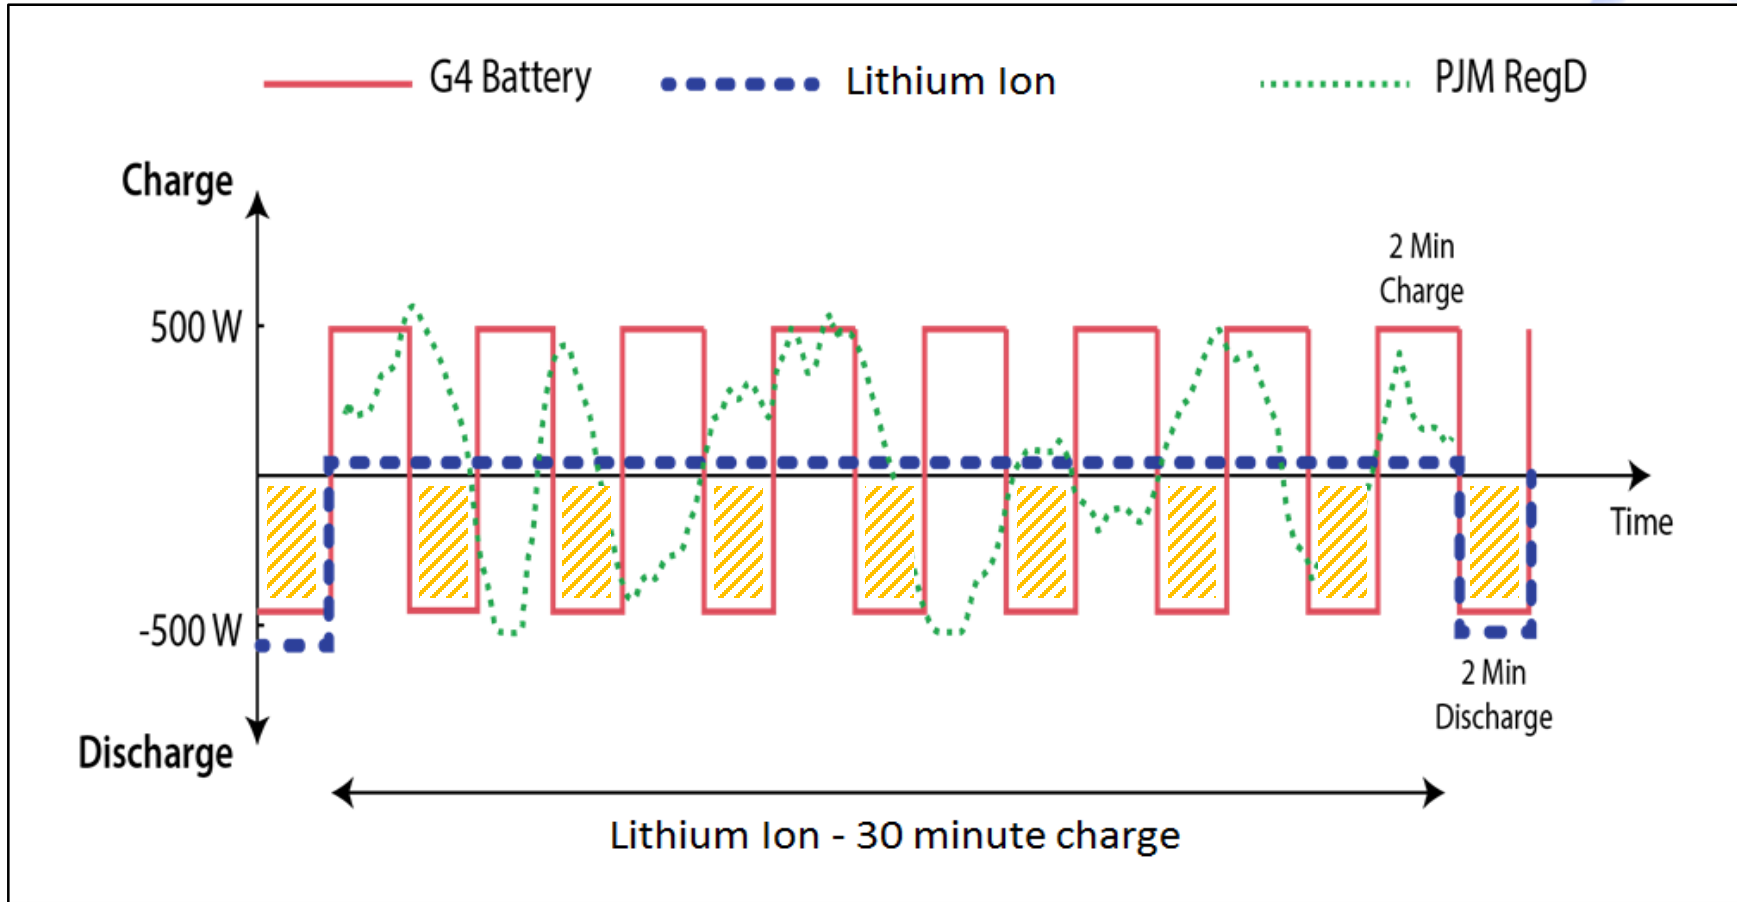

- Advanced NiMH batteries
 - Unbeatable high power operation
 - 8 C-rate continuous operation
 - 16+ C-rate peak power
 - Intrinsically safe chemistry
 - Thermal Management – Integrated Air Cooling
 - Fully integrated battery management system (BMS)

10 Cell 45Ah Discharge Pulse Power Delivery

In this model, the G4 Advanced NiMH delivers ~7 times more energy than competitive Lithium-Ion polymer batteries (LPB) at nearly the same power per discharge
