

[Associate of Applied Science in Architectural Design and Construction Technology](#)

Northwest Florida State College offers an Associate of Applied Science degree in **Architectural Design and Construction Technology**. Students may pursue an emphasis in **Architectural Design/Computer Aided Drafting (CAD)** or **Building Construction**. The Architectural Design and Construction Technology degree prepares students for employment in various areas of the construction industry. The program emphasizes Computer Aided Drafting and Design (CAD) using the AutoCAD program and Microstation. CAD is one of the highest demand and highest paying areas of drafting studies. The core curriculum includes content in technical drawing, engineering graphics, building construction materials and processes, blueprint reading, construction estimating, and architectural drafting.
